REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: allowance of claims 10 and 11 is indicated because the prior art of record does not show or suggest Insulation films are formed on a surface of the front plate on a side opposed to a side of being connected with the inner main body and an outer side surface of the inner main body, wherein the locking projection is formed on the surface on which the insulating films are not formed, and therefore a front plate and a face of the inner box main body are electrically connected as recited in claims 10-11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

NOTE: The term "the locking projection is formed on the surface on which the insulating films are not formed" is not a new matter, because it discloses in the specification of the Application (Spec. page 14, lines 1-6). Also, reference Enami (US 4,563,559), previously cited, discloses a front panel (5) which is insulated by the paint (col. 1, lines 40-65), however, the combination of Spencer (US 4,609,801) and Enami (US 4,563,559) does not overcome the above allowable limitation.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang T. Van whose telephone number is 571-272-4789. The examiner can normally be reached on 8:00Am 5:00Pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tu Hoang can be reached on 571-272-4780. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
